WHAT WE BELIEVE

OUR MISSION

To follow God's call by providing dignity to the undervalued
by connecting and energizing those who can help.

OUR VISION

Raise up a community based on serving and giving to others
in the name of God.

THE ISSUES

In the United States

Over 600,000 people 1 in 30 children
HOMELESS EACH YEAR

Up to 40%
of public donations to charities go towards operating costs

WHAT WE DO

100% OF YOUR DONATIONS GO STRAIGHT TO THE CAUSE

We establish the connections from the needy to the resources that they are in need of.

We understand that not every person wants to donate to the same cause, that is why we're creating a system in place that allows for people to recommend new outreaches to be approved by our board.

We center our program on local outreaches to spread the message of hope and to bring the homeless to self-sustainability. Through predefined action plans, we are able to not only provide the needy with supplies but also to connect them with local resources where they can help themselves.

OUR PLAN FOR THE FUTURE

We plan to raise the funds necessary to support our overhead expenses through crowd funding. Then, ultimately establishing a for-profit arm under The Joshua Wave that exists solely to give the homeless jobs and fund expenses. Alongside that, we have a set group of private contributors that donate solely to overhead costs to ensure that 100% of your dollar goes to the cause you feel closest to.

We Believe in creating outreaches that are close to your heart. We will create specific programs to help people in need all over the United States and eventually the world. With your help in this next year, we will successfully become one of the few self-sustainable charities which ensures that

100% of your dollar goes towards the cause.

JOIN OUR TEAM

We Believe in creating a team that focuses on helping people in need and empowering others to help as well. Through our research we have found that most people who are reluctant to donate give reasons such as they 'don't want to pay for overhead or marketing costs' or that they 'don't feel connected with the individuals they are helping and can't directly track their money.' We are consistently looking for people to help fight this social trend and defeat the standard of what being a part of a charity is really all about. You can join us through partnerships, becoming a private contributor, or volunteering in your community.
